

Jewelry Design

TDJ20 – Jewelry Design
TDJ30 – Jewelry Design

- This course enables students to apply a systematic process for researching, designing, building, and assessing solutions to address specific human and environmental challenges.
- Through their work on various projects, students will explore broad themes that may include aspects of industrial design, mechanical design, architectural design, control system design, and/or apparel design.
- Students will develop an awareness of environmental and societal issues related to technological design, and will learn about secondary and postsecondary pathways leading to careers in the field.
