

Ottawa Technical Secondary School

Hospitality and Culinary Arts: Baking and Cooking

This OTSS program has been an integral part of the school and community for more than three decades. Foundational skills, teamwork, and professionalism are nurtured and encouraged by all teachers in this program. Recent changes in the industry are reflected in content delivery to students, and opportunities in the Travel and Tourism, Baking, and Cooking industry are explored.

The OTSS program allows you the opportunity of exploring a career in the tourism industry, cooking or baking in real-life working kitchens. This theory and experiential learning. course offers opportunities in all three industry sectors. Enrolled students in Grade 11 may also choose to take advantage of our Specialist High Skills Majors program.

Areas of Focus:

- Apply safe cooking and baking skills and knowledge using modern equipment
- Recognize career opportunities in the hospitality and tourism industry
- Design significant marketing initiatives to promote local industry
- Prepare and present food products in a variety of ways using classical and modern technique
- Use numeracy skills to calculate food costs and understand inventory systems
